

## Aligned

### FIXED WIRELESS CIRCUIT INSTALLED LESS THAN 24 HOURS

Late on Wednesday afternoon, One Ring Networks received a request for a fixed wireless solution. By the close of business on Thursday, the end-user had their fixed wireless circuit installed and operational.

#### THE NEED FOR SPEED

Aligned Communications is a telecommunications master agency based in Dallas, Texas. The established telecom experts assist IT companies, managed service providers, and phone system vendors with the sale and distribution of telecommunications and cloud products. Similarly, Aligned Communications utilizes this network to solve connectivity challenges for businesses across the state of Texas.

Frymire Home Services is one such business. A local plumbing, air conditioning, and heating company, Frymire has been solving all types of mechanical service needs for homeowners in the Dallas-Fort Worth metroplex since 1950.

They needed a reliable Internet solution to support the company's growing operations, and they needed it yesterday. Based on previous successes, Aligned Communications turned to One Ring Networks requesting a 100Mbps x 100Mbps fixed wireless circuit.

### The Challenges

Need for internet within 24 hours

### The Solution

One Ring Networks fixed wireless service

### The Results

A quick turnaround time with the customer connected within 24 hours of initial service request

“We needed a fast solution. We’ve worked with One Ring Networks for over a year now and the speed of their delivery has always impressed us,” said Dave Wallace, President of Aligned Communications. “As soon as we identified the opportunity with Frymire and recognized the client needed a quick turnaround, we contacted One Ring.”

**“WE NEEDED A FAST SOLUTION. WE’VE WORKED WITH ONE RING NETWORKS FOR OVER A YEAR NOW AND THE SPEED OF THEIR DELIVERY HAS ALWAYS IMPRESSED US”**

## THE FASTEST SOLUTION

Due to the nature of the request, One Ring Networks had to act immediately. Typically, a dedicated fixed wireless circuit takes approximately 30 days to install but with the support of Aligned Communications, Frymire was serviced with a point-to-point connection in less than 24 hours.

With One Ring Networks’ fixed wireless solution, Frymire Home Services now enjoys a high-speed, dedicated connection that provides reliable and secure Internet access. Frymire also benefits from the range of Internet access options that are faster and more reliable than their previous solution.

**“OUR MISSION IS TO PROVIDE CLIENTS WITH THE BEST TELECOM SOLUTION FOR THEM,” SAID WALLACE. “WORKING WITH ONE RING NETWORKS HELPS US ACHIEVE THIS BY MAKING THE EXPERIENCE SEAMLESS AND STRAIGHTFORWARD. THEY’RE FAST AND PROVIDE FANTASTIC QUALITY. WE KNOW THAT OUR CUSTOMERS ARE GOING TO BE HAPPY WITH ANY PROJECTS COMPLETED IN PARTNERSHIP WITH ONE RING.”**
